

CR1220-BO-V1A

1. Description:

CR1220-BO-V1A is a simple CR1220 battery holder breakout board. It brings the positive and negative pin of a CR1220 battery holder to screw terminal blocks or headers for easy testing, prototyping and breadboard connection. For breadboard connections, user can use the headers on both sides of the breakout board to connect to the positive and negative rail of the breadboard.

2. Features:

- Positive and Negative pin of a CR1220 battery holder brought out to headers or screw terminal blocks
- Various connecting method chosen by users.
- 11.02"(28mm)X2"(50.8mm) board dimensions

3. Parts:

- 1) 1pc X CCBH-BO-V1A PCB
- 2) 1pc X CR1220 battery holder
- 3) 1pc X 2pin 0.1"(2.54mm) spacing terminal block
- 4) 1pc X 20pin 0.1"(2.54mm) header
